

Giorgi Khelashvili

Front-End Developer

Tbilisi, Georgia g.xelashvili2001@gmail.com [+995 544 111 895](tel:+995544111895) [GitHub](#) [LinkedIn](#) [Live portfolio](#)

PROFILE

Front-end developer building interactive web applications with JavaScript, Angular, and React. My experience comes from self-directed learning, coursework, and personal projects, with a focus on responsive interfaces, animation, and practical application development.

I'm seeking an opportunity to contribute to a collaborative team, strengthen my development skills, and help turn ideas into thoughtful, usable web experiences.

SKILLS

HTML · CSS / SCSS · JavaScript · Angular · React · Tailwind CSS · Responsive interfaces · CSS animation

EDUCATION

Computer Science — International Black Sea University

2019 – 2020 · One year of study; degree not completed.

Front-End Web Programming — IT Step Academy

2025 – 2026

CERTIFICATIONS

SELECTED PROJECTS

Motion Shelf — Visual CSS Animation Library

Aug 10, 2026

A visual library for creating and previewing CSS animations. Organize reusable animations, copy their code, and export them for use in other projects.

[View live project](#) [Source on GitHub](#)

Idle Loader — Angular Idle Game

Mar 16, 2026

An Angular idle game combining background resource generation, world progression, and interactive game interfaces. Players continue to accumulate resources and progress while idle.
